Miniature Nephroscope
15 / 18 Fr.

Miniature Nephroscope 15 / 18 Fr.

Percutaneous Low-Pressure Nephroscope with Continuous-Irrigation Sheath

- First mini nephroscope specially developed for Mini-PCNL.
- For large lower calix stones as an alternative to ESWL.
- Stainless steel dilators for time-saving, one-step dilatation.
- Automatic locking mechanism between sheath and endoscope.
- Automatic seal on working channel allows for fast, safe introduction of auxiliary instruments.
- Titanium and stainless steel contribute to durable sheath construction.

Endoscope and Accessories	
	<p>PANOVIEW operating endoscope, 12°, 12 Fr. outer diameter, WL 225 mm, with laterally offset eyepiece, 6 Fr. working channel, automatic valve with seal membrane 8968.421</p> <p>Sterile universal sealing valve, pack of 5 4712348</p>
	<p>Continuous irrigation sheath, round, WL 205 mm, with rotatable irrigation ring, straight distal tip, automatic locking mechanism</p> <p>15 Fr. 8968.001</p> <p>18 Fr. 8968.011</p>
	<p>Obturator, hollow</p> <p>for sheath 8968.001 8968.101</p> <p>for sheath 8968.011 8968.111</p>
	<p>Amplatz sheath,</p> <p>18 Fr., WL 150 mm 8968.041</p>

Access Instruments	
	<p>Dilator, WL 320 mm, "one-step" dilatation, stainless steel</p> <p>12 Fr., for 15 Fr. sheath 8968.012</p> <p>15 Fr., for 18 Fr. sheath 8968.015</p>

Instruments	
	<p>Stone grasping forceps, 2.0 mm, WL 365 mm, with overload protection and mouse tooth geometry 8968.601</p>
	<p>Three-pronged stone grasper, 2.0 mm, WL 365 mm 8968.671</p> <p>Spare stone grasper, three-pronged 8968.675</p>
