

International Workshop on ACL Reconstruction & Revision

15th to 16th July 2024 • Knittlingen, Germany

Introduction

Dear colleagues,

Cruciate ligament injuries continue to be one of the most serious injuries in sports.

The right treatment and rehabilitation are crucial for the result. In our workshop we want to discuss current approaches to primary care as well as the challenges and options in the event of a revision.

In addition to the theoretical part, we will have the opportunity to immediately implement special surgical techniques on human specimens in small groups and thus deepen what we have learned.

We look forward to a lively collegial exchange.

Prof. Dr. Jürgen Höher
Sportsclinic Cologne

Dr. med. Tobias Jung
*Center for Muculoskeletal
Surgery (CMSC)
Charité University Medicine
Berlin*

Registration

I will participate in the International Workshop
on ACL Reconstruction and Revision from
15th to 16th July 2024:
